

November 07, 2025: On Being Stalked by an Actual Team of Human Beings and Tonight's Movie

I am recording for historical purposes that there is an absolute effort to exhibit to me that I am being stalked by a team of people that are operating cars as their 'horses' to ride around and 'herd' me into my property every day - all day, all night.

This used to be an actual 'false imprisonment' as they would follow me everywhere that we went before I started presenting it as a false imprisonment. Now, the team generally keeps their stalking to the perimeter of our home - while proving every day that they are peeping toms that are watching us inside of our home and yard.

This is our actual life in America in 2025 under the administration of Donald J. Trump and the technological tools of Elon Reeve Musk. Apparently 'Reeve' is Elon's Middle name to honor his maternal grandparents.

"**Errol Musk** (Elon's - child abusing - Father) **talks about Elon's maternal grandparents, who were members of the Nazi party in Canada and later moved to South Africa because they supported the Apartheid regime,**" read (archived) one X post that has amassed over 3.8 million views as of this writing."

Tonight's Movie is 'Inglourious Basterds' -

U.S. Army lieutenant **Aldo Raine** (All Dough (money) Rain) recruits Jewish-American soldiers to the "Basterds," a **black ops commando unit tasked with instilling fear among Nazis in occupied France** by killing and scalping them. The **group includes Sergeant Donny "The Bear Jew" Donowitz (Don, Don)**, privates first class **Smithson** (U-dabitch) Utivich and Omar (O-War)(Turn More) Ulmer, rogue German sergeant Hugo (You Go Stag-Lips) Stiglitz, and Austrian-born translator Corporal Wilhelm (Will at the Helm Wick - of the candle) Wicki. **Raine leaves a swastika mark on surviving German soldiers so they can't hide their Nazi affiliations** after the war.
